

HOW TO FIND YOUR OFFICIAL ROSTER

How to find your official roster:

If you use getsoccer,

log into your team account

click on Team Profile in the grey bar at the top.

Click on documents

If your home registrar loaded it correctly, you should see a document there that says Official Roster in blue. Click on that. It will download.

On the left bottom, it should already be signed by your home registrar. You sign on the right bottom and send that to me.

If you do not see the file there or if it is not pre signed by your home registrar, you will need to contact your home registrar.

If you do not use getsoccer, you will need to contact your home association for instructions on how to retrieve your official roster.

Hope this helps!!
